This 36th edition of IIJS Premiere is your chance to discover the diverse facets of India’s thriving gem and jewellery industry. Scheduled from August 9th to 12th 2019, IIJS Premiere will showcase 1,300 of India’s leading gem and jewellery manufacturers, at Bombay Exhibition Centre, Goregaon, Mumbai. Entry to the show on the Preview day August 8th can be availed through self-nomination.

The Council’s focus for the last couple of years has been to promote brand India and establish the country as the prime hub for jewellery sourcing. IIJS Premiere provides a global platform for the Indian Gem & jewellery industry, and facilitates opportunities for manufacturers that are exclusively export-focussed to increase the export figures of the sector year after year. IIJS Premiere is the platform where manufacturers go all out to create exciting new products that are appreciated in India and abroad. The show underpins the industry’s holistic approach to unite the different segments on a common platform, which is further strengthened by the dynamism of the participants and support from the government.

This year the show has an anticipated turnout of 40,000 plus business visitors, who can expect to see fresh designs that excel in quality and craftsmanship and are priced competitively to suit every market segment.

Visit IIJS Premiere 2019 to benefit from the country’s biggest trade event of the year.

The gem and jewellery industries hopes and aspirations are high with the NDA Government taking charge for the second term. The industry is confident that Hon’ble Prime Minister Shri Narendra Modi will energise all sectors and businesses to work together and achieve his vision of New India by 2022, the 75th year of India’s Independence.

The gem and jewellery sector has been contributing immensely to the economy of the country. GJEPC’s recent initiative with the support of the Government such as Jewellery Parks, Common Facility Centres (CFCs) and Skill Upgradation have geared up the sector to play a bigger role soon.

Shri Piyush Goyal the Union Minister for Commerce & Industry and Minister of Railways, has been pivotal to the growth of gem and jewellery sector. He aided the industry sail through innumerable impediments in the last few years. The industry is extremely fortunate to have an experienced and accomplished person at the helm of the Ministry of Commerce & Industry. The Indian gem and jewellery trade is enthused with dynamic optimism to work under him. I am confident that under his able leadership and guidance, the gem and jewellery sector will achieve its objective of touching $60 billion in exports and generating employment for 6 million people by the year 2022. The entire gem and jewellery industry looks forward to work with him and contribute immensely to Hon’ble PM Shri Narendra Modi’s vision of building New India.

We are hopeful that the 36th edition of IIJS Premiere will be great success as the people’s hopes and aspirations have increased with the new government taking charge. IIJS Premiere will occupy five large halls measuring 65,000 sq m at the Bombay Exhibition Centre. The interconnected venue will enable the estimated 40,000 plus visitors to seamlessly navigate all the product sections and ensure that they don’t waste precious time during entry or exit. I’m certain that these and several other changes incorporated based on your valuable feedback will make IIJS Premiere 2019 a rewarding experience for all. With the major global markets showing hints of a revival, I’m hopeful that this will translate into a positive business atmosphere on the show floor.

I invite you to make the most of the opportunities at IIJS Premiere and wish you all great success.

IIJS PREMIERE 2019
ASSOCIATION SPEAK

With more than 1,300 members from around the country, the Madras Jewellers and Diamond Merchants’ Association (MJDMA) was an idea conceived by jewellery doyens about 80 years back to cater to the needs of the jewellery fraternity. We expect around 400 to 600 members to make it to the IIJS Premiere. The first half of retail jewellery market in 2019 experienced a roller coaster ride with rising gold rates. However, with the arrival of the marriage season, we expect the retail market to soar again. Our members constantly look out for new product range, and this trade show provides an excellent platform to experience and explore it.

JAYANTILAL CHALLANI
President
Madras Jewellers and Diamond Merchants’ Association, Chennai

GJTCI is doing pioneering work to develop the jewellery sector through education, promotion and other industry-based activities. The basic idea is to provide guidance and assistance to the 1,200+ lifetime and other annual members across the nation in bringing professionalism to the trade and identifying trade promotional activities.

We will be bringing approximately 500 members from our association to IIJS Premiere this year. I believe there will be an upward trend in the retail jewellery market, depending on a good monsoon, since agriculture plays a significant role in our economy. Political stability will also have a positive impact on sales. Our members are likely to source studded jewellery and diamonds.

IIJS Premiere has set a benchmark in the gem and jewellery sector. Majority of the industry relies completely on the show for its annual purchases and sourcing.

This year, the registration process has been online and I believe it is a great step. However, not all are digitally savvy so steps should be taken to create awareness.

To register, email us at seminars@gjepcindia.com

VISITOR VOICE

IIJS Premiere is the only big show in India with a large number of exhibitors under one roof. It's an excellent place to see new designs, meet new and old suppliers, and order jewellery for our showroom. We are one of the oldest retailers from Jodhpur situated at Sardarpura, Rajasthan, and we display a large variety of jewellery for women, men and children too. At IIJS Premiere, we intend to source loose gemstones, diamonds, plain gold and studded jewellery, in traditional as well as contemporary designs.

GJEPC HOLDS EXHIBITOR MEETS IN MUMBAI & JAIPUR

New booth design and structural guidelines unveiled

The Gem & Jewellery Export Promotion Council (GJEPC) held two meetings in Mumbai and Jaipur in mid-May for exhibitors of IIJS Premiere 2019. The meetings were conducted to disseminate information about the customised pre-fabricated, furnished designer booths for shell scheme exhibitors and revised structural norms for mezzanine booths. Prototypes of the new booth designs were displayed at the venues.

At the Mumbai meet held in Hotel Trident, BKC, on 14th May, Shailesh Sangani, member of the Council’s national exhibition sub-committee, held a discussion with exhibitors about the proposed changes, such as the introduction of customised, pre-fabricated, furnished booths measuring from 9 sq m to 18 sq m. The new booths will help to maintain a uniform design aesthetic and are in keeping with the Council’s relentless drive to raise standards to international levels.

Structural consultants gave exhibitors a complete overview of the new safety guidelines and regulations pertaining to mezzanine booth construction (36 sq m to 108 sq m), including details of the structural guidelines and specifications. The changes are being introduced to enhance durability of the booths and ensure safety for all. The presentations in Jaipur and Mumbai were followed by Q&A sessions that helped participants to resolve any pending doubts or queries.

The exhibitors appreciated the initiatives proposed by the GJEPC, especially the new booth design format, attention towards safety measures, and the preparedness programme for the show.

At IIJS Premiere 2019, the machinery section will provide access to global advancements and the latest jewellery, gemstone and diamond production equipment, casting and electric casting equipment, precious alloys, refinery ingredients, tools and machinery.

IIJS Premiere is the ideal platform to explore the latest developments and innovations in machinery, new alloys and computer-aided solutions to help India achieve leadership position in jewellery manufacturing. Manufacturers and designers can combine their designing and creative skills with advanced technologies to achieve what may seem otherwise impossible to achieve.

The section will feature leading suppliers of machinery not only from India but also from Germany, Italy, USA and China, bringing cutting-edge jewellery manufacturing technology. Visit the show to gain a deeper insight into the ever-changing world of gems & jewellery and to connect with industry leaders and business partners.
